

In June, 2018 Host2Host members were surveyed regarding the upcoming Portland City Council Hearing. 41 members replied (30% of our hosts). While much of the survey isn't relevant now, the following we did find of interest and think you might also.

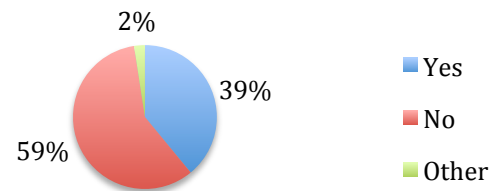

## Would you rent out your space long term?

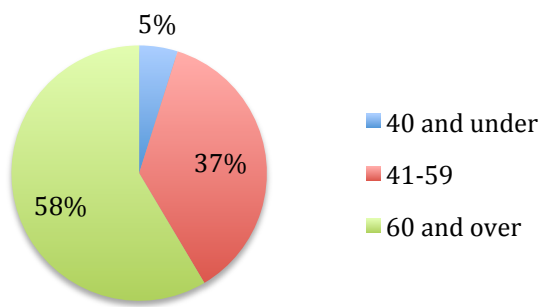

## Are you retired?

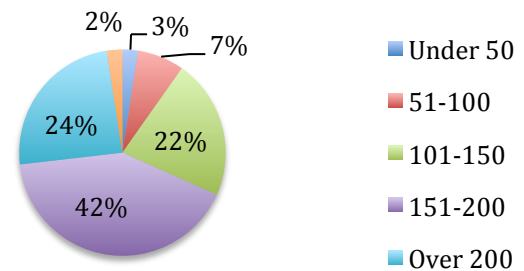

## Are you living alone, managing a home and the short term rental?

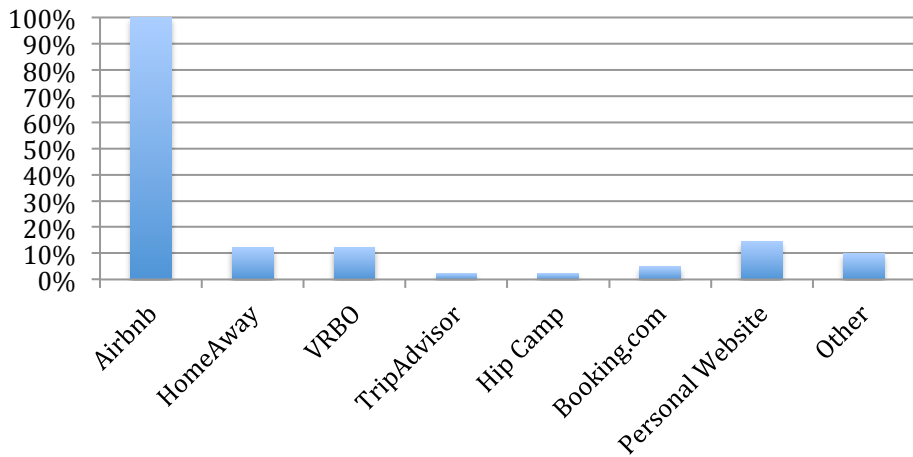

## What age range do you fall into?

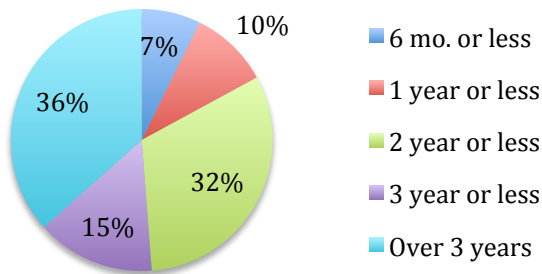

## Approximate number of days per year you have guests.

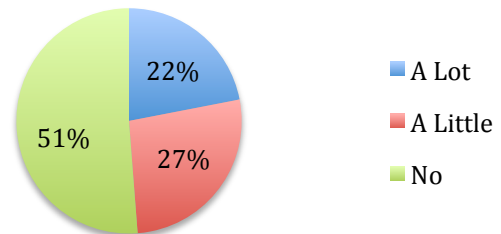

## What platforms do you use?

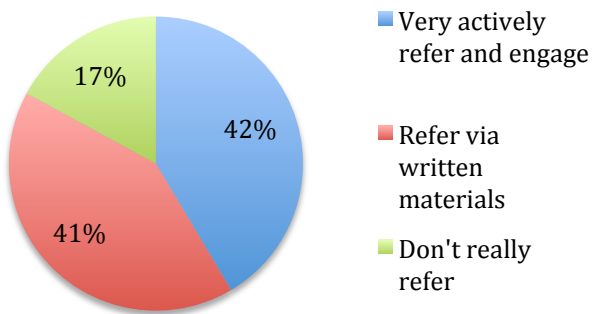

## How long have you been hosting?

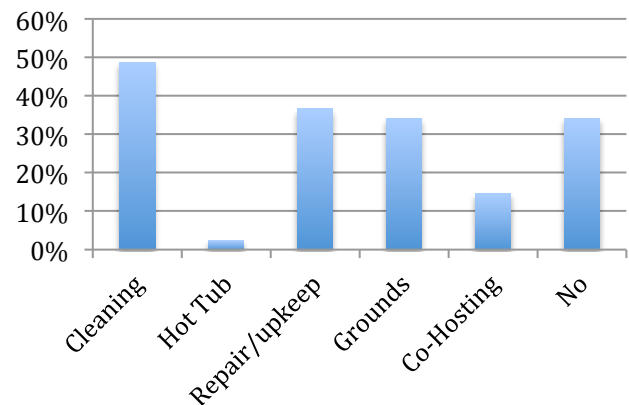

## Are you/have you been involved with your Neighborhood Association?

## Do you refer your guests to local businesses?

## Do you employ the services of others?

# Neighborhood
