

## Service Animal Introduction

Service animals are tricky! This handout begins with a "pop quiz," to demonstrate that following nondiscrimination (and other) laws can be counterintuitive. Next, there is a short outline of legal concepts that govern nondiscrimination, but are hard to "google." Because Oregon law is more protective of the disabled than federal law, key definitions and statutes are provided from fair housing and public accommodations law. The new 2017 AirBNB policy language is provided, showing how the policy tracks the laws of liberal states like Oregon. Finally, a summary of Best Practices for AirBNB hosts is provided.
